

Supervisor Meeting

08 October 2020

Time: 1400

Location: MS Teams

Attendees: Darragh, Anthony, Michael, Damien

Introduction As a team we had decided to go down the route of working on the concussion detection application. Today's meeting was to confirm the same with Damien and to begin discussing our ideas.

Ideas Discussed We had used the previous few days doing some light research into the idea of concussion detection and how it might be achieved. We discussed possible technologies we could use and how they might be used. Damien mentioned Ed Daly, lecturer in Sports Science GMIT, who has a background in concussive injury studies. Damien has set up a meeting with Ed on the 12-10-20.
