

Supervisor Meeting

01 October 2020

Time: 1400

Location: MS Teams

Attendees: Darragh, Anthony, Michael, Damien

Introduction The meeting was used to talk about possible project ideas, project scope and expectations. The meeting was held on Microsoft Teams.

Ideas Discussed We brought up ideas we had had over the past few days. Damien discussed some of last years better projects.

- Messaging Application - eg discord
- Contract Tracing Application - regarding Covid-19
- Continuation of 3rd year Hololens Project
- IOT applications for Smart Houses
- VR/AR Conflict Management
- Concussion Detection Application and Research
- Fishing Cast Application

Available Hardware Damien Informed us of hardware that could be loaned to us from GMIT for the purposes of a project.

- Oculus Quest
- Hololens
- Shimmer Devices
- XBox Connect

Scope As our team consists of three members the scope for our project needed to be more extensive than if we were a smaller group. Bearing that in mind we shy-ed away from some of the ideas we had brought to the table.
